LKQ Euro Car Parts commits to a **25% female workforce** by the end of 2025.

## AUTOMECHANIKA BIRMINGHAM IS THE MOST IMPORTANT EVENT FOR BODYSHOPS.

It's where bodyshop owners and professionals go to access, test and compare technology and experience hands on demos, across welding, dent pulling, paint spraying, VDA, refinishing, M.E.T, ADAS recalibration and more, at the most important national event for collision repair teams.

Technology and techniques are evolving at a faster pace than ever, Automechanika Birmingham gives you everything you need for you and your bodyshop to thrive, not just survive. This is the most important gathering of bodyshop owners and professionals in the UK, providing face-to-face access to leading suppliers.

## ABOUT THE SHOW

**Tickets are FREE!**

\*FREE TICKET, PARKING, COFFEE & BACON ROLL

Arrive before 10.30 am to redeem **FREE** breakfast. **FREE** parking and breakfast are **STRICTLY** for garage and body shop visitors.\*

## PLANNING & PREPARATION

Page 6

### WHAT'S ON

Modern Garage Live, EV Training Academy, IAAF Garage Awards and SO much more

Page 8

### SKILLS TRAINING

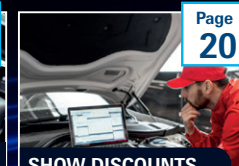

192 hours of free skills training and live hands-on demos for the whole workshop team

Page 18

### HANDS ON DEMOS AND TRAINING

In addition to our skills training hubs, there are hundreds of on-stand demonstrations

Page 20

### SHOW DISCOUNTS

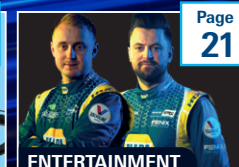

As well as testing the latest innovation, you'll get exclusive show discounts

Page 20

### GIVEAWAYS AND COMPETITIONS

You can pick up free giveaways and be in with a chance to win £50,000 worth of prizes

Page 21

### ENTERTAINMENT

Meet Nicolas Hamilton, Dan Rowbottom, Ash Sutton, Jake Hill and more to be announced

Page 22

### PRODUCT LAUNCHES

There will be up to 50 product launches unveiled at the show

Page 23

### EXHIBITOR NEWS

Last-minute additions including Matty Evans visit to the Liqui Molly stand

Page 24

### FLOORPLAN AND EXHIBITOR A-Z

See the 500 exhibitors from 23 countries on the floorplan

First 500 visitors through the door will get a goodie bag with a range of goodies, including a **limited edition Automechanika hoodie or beanie hat**. Water bottles from Tunap and a surprise gift from **Tool Connection! ONLY FOR THE FIRST 500 THROUGH THE DOOR**

## Remove the guesswork. Make complicated repairs simple with ALLDATA Repair!

**ALLDATA**  
 AUTOMOTIVE INTELLIGENCE

## Diagnostic and repair data direct from the manufacturer

Make sure you circle ALLDATA Europe on your list of 'must-see' exhibitors, to discover how sophisticated jobs can be simplified.

ALLDATA Repair provides garages and bodyshops with accurate and unedited OEM repair data:

- 29 VM licence agreements
- 91,950 make, model, engine and year vehicle combinations – that's 95% of vehicles on the road today!
- Six million technical drawings and wiring diagrams, including electrical connector views
- All accessible in seconds!

## WHY DO GARAGES NEED US?

Oldfields Garage Owner, Tim Benson, is well-placed to explain: "We had a fuel filter on a Volvo, a type that we'd never seen before. The fitting was different to ones seen previously.

"We logged onto ALLDATA Repair and found the exact procedure for replacing the fuel filter. It showed the type of clip and how it opened. Using ALLDATA Repair meant we were able to complete a 30-second job; whereas, before we invested in ALLDATA Repair, we probably would've broken the clip and ended up having to buy a fuel line. It'd be our fault and we'd have to explain that to the customer."

## WHY DO BODYSHOPS NEED US?

Car Body Solutions General Manager, Peter Shuff, revealed that "within five minutes, I knew I had to have ALLDATA Repair in my bodyshop".

He recalled: "There was a brand-new Hyundai EV in the bodyshop. I had to disconnect the battery and take the wiring loom out. I knew how to power down the vehicle, but I wasn't sure how to remove the wiring loom. I assumed that it would come out via the rear of the vehicle; however, after entering the vehicle registration into ALLDATA Repair, I was surprised to learn that, actually, the loom came out at the front! If I hadn't checked ALLDATA Repair, I would have removed the panels at the back and stripped the boot out. ALLDATA Repair provided me with the step-by-step instructions and saved me an hour."

## WANT TO DISCOVER MORE?

Join us on **7th June at 1:15pm** in the **Workshop Hub at Automechanika**, where our technical support specialist, Steve Derham, will be joined by a panel of independent experts to discuss all things repair data: trends, challenges and necessity!

## 192 hours of free skills training and live hands-on demos for the whole workshop team

### THE BODYSHOP TRAINING HUB

In association with Bodyshop Magazine, these sessions will provide the latest updates, advice and technical innovations for the UK's Collision Repair sector. Covering ADAS, body repair, EV repair, paint, refinishing, BS10125 and more, the topics will be presented by renowned industry figureheads and experts, ensuring you're getting the best information available to the sector.

 In association with **bodyshop**

### THE EV TRAINING HUB

An increasingly popular programme highlighting the requirements and opportunities available to the aftermarket to adapt to hybrid and electric vehicle service and repair. A must-attend programme for anyone intending to service and repair vehicles in the immediate future and beyond.

 Sponsored by **nexdrive**  
POWERED BY

### COLLISION REPAIR LIVE

**NEW**

Live demonstrations from leading suppliers to the UK repair sector will ensure bodyshop visitors get first-hand experience of the latest products and techniques to help them perform their tasks more effectively and efficiently.

### DETAILING HUB LIVE

**NEW**

As the education partner and co-curator of the programme, The UK Detailing Academy invites the community to join them at this brand new feature for practical demos and to discuss the sector's challenges and opportunities.

 In partnership with **UKDA**

### PAINT & SPRAY LIVE

**NEW**

An opportunity for you to witness paint and spray demonstrations, seeing the latest paints and sprayguns in action within our fully ventilated and operational spraybooth, courtesy of Masterflo.

In partnership with

### EV TRAINING ACADEMY

**NEW**

The IMI and Our Virtual Academy team up to deliver a programme of Beginner and Advanced training sessions, supported by two demo vehicles so visitors can get hands-on, practical EV advice by renowned industry experts.

 In partnership with **IMI** INSTITUTE OF THE MOTOR INDUSTRY

## TAKING PLACE OVER ALL THREE DAYS

## Teroson

**Seam Sealing, Plastic Repair & Structural Bonding**

Hall 18, T130

Seam Sealing, Plastic Repair & Structural Bonding Demonstrating the three pillars of Teroson collision; repair, rebuild and replace products and solutions.

Using a car shell there will be a focus on seam sealing and the reproduction of standard and special OEM textures, such as flat and wide-stream beads, with its TEROSON range of brushable and sprayable sealants. Additionally demonstrations for plastic repair, structural bonding and the LOCTITE range of engineering adhesives for thread locking, thread sealing, retaining, emergency bonding, gasketing and lubrication.

Training with our Experts: Learn how we can help you and your team to enhance your skills through best-in-class application processes and useful hacks. Approach us at the show and let us know you are interested in an in-workshop seminar and we will be in touch to visit and demonstrate our solutions.

## Flex Tools

**Demonstrations will show you how to de-nib, remove overspray and paint runs**

Hall 18, V90

damageundone will be showing panel recovery techniques using FLEX sanders, polishers and vacs. The aim of the demonstrations is to show bodyshops how to rectify poorly finished panels and bring them back to perfect condition (lacquer run correction, orange peel, sanding and polishing techniques). Each morning (10.30am) and afternoon (2pm) throughout the show.

## Core Diagnostics

**Increase productivity & satisfaction through remote service solutions**

Hall 18, Z106

Behind the scenes access to the Core operation, to see how by streamlining complex programming, coding and ADAS calibration procedures, users are benefitting from increased workshop productivity and enhanced customer satisfaction as a result of faster key-to-key times.

## ProXL

**Save Energy, Save Costs. Meet the new ProXL Energy Saver products!**

Hall 18, U135

There will be on demand product training and demonstrations by trained demonstrators throughout the event for our UV curing stopper and Generation20 Polish system.

There will also be product training on our ULTRAGrip and ToughOX products to demonstrate the Flexibility, durability and impact resistance of the finished product.

## PPG Industries UK Ltd

**PPG LINQ™ and MOONWALK® Demonstrations**

Hall 18, V124

PPG LINQ™ Demonstration: Hands on demonstrations of our new revolutionary technology PPG VisualizID™ and PPG DigiMatch™

PPG MoonWalk® - The award winning automated mixing machine will be showcased on the PPG stand, providing demos to all delegates.

Live demos of the PPG Low Energy Repair Process will take place in the Automechanika spraybooth. PPG SUSTAINABILITY CO2NCEPT Consultations for bodyshops will be available over the three days on the PPG stand.

## Indasa Abrasives Ltd

**Launch demonstrations of the PRO-X Power Tool and Mesh Line Abrasives**

Hall 18, W90

Indasa Abrasives Ltd will be showcasing two new products in conjunction, to demonstrate –

- Minimised abrasive clogging improves sanding performance & efficiency
- Maximised extraction for dust free sanding
- Creates a cleaner & safer working environment

## GYS UK

**Machine riveting with the GYSPRESS Connected Riveter, and Spot welding with the GYSPOT PTI Premium Pro Spot Welder**

Hall 19, L125

GYS will be demonstrating the latest Induction heating equipment showing the benefits of controlled heat and improved health & safety compared with heating by flame. Demonstrations will be happening all day throughout the show.

## Keco Tabs UK

**The power of Glue Pull Repair for steel, HSS and Aluminium**

Get hands on and see how Glue Pull Repair (GPR) can save you time especially with EV and Aluminium repairs.

## Core Diagnostics appoints Neil Hilton as Technical Sales Director

Core Diagnostics has appointed ADAS expert Neil Hilton as it sets its sights on being the UK's leading provider of remote support services.

A comprehensive cloud-based solution for programming and coding of new parts that assists technicians with thousands of repair challenges each month, as well as providing remote support with ADAS calibrations, Core Diagnostics has built a loyal customer base of accident repair centres, nationwide glass companies and general workshops, as well as providing a 'white label' support service to a number of well-known diagnostic brands who have recently launched remote services in the UK and Europe.

ADAS calibration accounts for an increasing number of the job tickets that Core Diagnostic receives, with users benefitting from increased workshop productivity and enhanced customer satisfaction as a result of faster key-to-key times.

As the rapid growth of ADAS showing no signs of slowing, Core Diagnostics has recently made a number of high-profile appointments to strengthen its expertise in this area, the latest being Neil Hilton, who takes up the post of Technical Sales Director. Neil joins Core Diagnostics from HELLA where he spent over thirteen years as Head of Garage Equipment, a role in which he was instrumental in launching the Hella Gutmann brand within the UK and for its rapid ascendance to become one of the leading suppliers of diagnostic and ADAS calibration tools.

An ADAS "expert", in 2018 Neil became a member of Hatcham Research's ADAS steering group and consulted on the development of the Insurance Industry Requirements for the safe repair of ADAS equipped vehicles (IIR) introduced in 2021.

In his new role at Core Diagnostics, Neil is keenly focused on further accelerating the brand's growth as it seeks to become the market leader in remote diagnostics.

Commenting on his new position Neil says "With vehicle systems being ever-more sophisticated, ADAS calibration and coding and programming of new parts can be challenging at the best of times. In recent years we've seen remote diagnostics become an increasingly valuable workshop tool and I'm in no doubt that it's the future.

Core Diagnostics were among the first to recognise this and their unrivalled investment in systems and expertise has put them at the spearhead of this new technology. I'm excited to join the team and look forward to helping to make Core Diagnostics the number one brand in remote support."

Mark Fleming, CEO of Core Diagnostics comments: "I'm proud of the reputation that Core Diagnostics has already established in the market and as we look to scale the business I'm delighted that someone so highly respected – and knowledgeable about ADAS – as Neil recognises the potential for remote diagnostics, shares our vision for the future and is excited to be part of this journey."

## ON THROUGHOUT THE DAY

## ADVANCED EV TRAINING

**Plug-in Charging: Proximity pilot circuit.**

In this session, you'll learn about the proximity pilot circuit used in the Type 2 plug-in charging system. Type 2 is the most common method for charging plug-in hybrids and electric vehicles, and much like any electrical system, there's more than enough potential for faults. So, during the training, you'll look at the details of Type 2 charging, including wall boxes and differences between cables, as well as the function, operation, and testing of the proximity pilot circuit.

## ESSENTIAL EV TRAINING

**HV System Isolation: Low-voltage service disconnect.**

In this session, you'll learn about the high-voltage isolation process using a low-voltage service disconnect. The device is becoming an increasingly popular solution used by vehicle manufacturers. We'll compare this solution to other types, explain its function and operation, plus some top tips for disconnecting and reconnecting the device during the high-voltage isolation procedure.

**CORE DIAGNOSTICS – STAND Y102**

Core Diagnostics will be giving a 'behind the scenes' look; you will have the chance to see how their technicians work and how your workshop can easily submit a ticket.

**SNAP ON – STAND P130**

Live, exclusive demonstrations of Snap-On Fast-Track® Intelligent Diagnostics on the latest diagnostic tools.

**TEROSON, T130**

Teroson will be demonstrating the three pillars of Teroson collision: repair, rebuild and replace products and solutions. There will also be the chance to undertake some training with experts; learn how they can help you to enhance your skills through best-in-class application processes and useful hacks.

**PPG – STAND V124**

Hands on demonstrations of our new revolutionary technology PPG VisualizID™ and PPG DigiMatch™. Live demos of the PPG Low Energy Repair Process will take place in the Automechanika spraybooth.

Also, the award winning automated mixing machine, PPG MoonWalk®, will be showcased, providing demos to all delegates.

**PROXL – STAND U135**

ProXL will be offering on-demand product training and demonstrations by trained demonstrators throughout the event for their UV curing stopper and Generation20 Polish system. There will also be product training on the ULTRAGrip and ToughOX products to demonstrate the flexibility, durability and impact resistance of the finished product.

**ISN EUROPE LTD – STAND R70**

Throughout the exhibition there will be tyre changing and wheel balancing demonstrations, giving visitors the opportunity to see the time and labour-saving benefits of both Hofmann and Balco equipment 'in action'.

**1TEC AUTO HUB – STAND O135**

Head to the stand at 11am and 2pm for hosted talks on the 'Garage of the Future'. The Members' Area, along with all the great content you would receive as member, will be demonstrated by one of the 1TEC Auto Hub leads.

**FLEX TOOLS – STAND V90**

damageundone will be showing panel recovery techniques using FLEX sanders, polishers and vacs. The aim of the demonstrations is to show bodyshops how to rectify poorly finished panels and bring them back to perfect condition.

**ALLIANCE AUTOMOTIVE UK – STAND R130**

Alliance Automotive will have an experienced EV trainer on their stand that will be available across all three days to answer any training queries visitors may have.

**ROTRONICS BATTERY MANAGEMENT SOLUTIONS – STAND T135**

Live demonstrations of Midtronics and CTEK EV Charging and testing products, and the industry-leading ROBIS battery information portal.

**NATIONAL PAINT CHAMPIONSHIPS  
VOTE FOR THE PEOPLE'S NATIONAL CHAMPION**
**FINALISTS:**

Jack Smith *Forged from Flake*  
 Robert Herrick *Brit Built Customs Ltd*  
 Julian Woodstock *Colchester College*  
 Becca Denton *Bex Airbrushing*

Rhisiart Griffith *RWG Built*  
 Ian Boulwood *Bespoke Autostyling*  
 Hannah Pusey *Bespoke Autostyling*  
 Ashleigh Shaw *Auto Bodyworx*

**ARNOLD CLARK  
AUTOPARTS – STAND Q70**

The first 500 customers who sign's up to the new **Arnold Clark** Autoparts trade website will get a free wireless phone charger (RRP £19.99).

**OSCA –  
STAND Z72**

On the stand you will receive exclusive discounts off the **OSCA 2.0 cable**, as well as chances to win prizes and OSCA goodie bags.

**KECO TABS  
UK – STAND BE03**

Free Lateral Tension System with every Level 2E System purchased.

**MIPA PAINTS LTD –  
STAND U70**

Experience the next level F1 racing experience with high-speed thrills from **Mipa Paints Ltd**. Each day, those people with the fastest top three lap times will win a selection of prizes, including a Magnum of Moët Champagne.

**FLEX TOOLS –  
STAND V90**

Win the award-winning **Flex Tools PXE 80 10.8-EC**: the cordless smart polisher for today's bodyshops and detailers. Keep your eyes peeled on their socials for surprise vehicle appearances...

**PROXL – STAND U135**

Can you make it on to the leader board? **ProXL** will have a fun, interactive game on the stand that will have a daily prize worth £200 for the person that reaches the highest score. There will be an on-stand leader board with a winner at the end of each day!

**AUTODATA – STAND T72**

Book a live demo with our Garage and Bodyshop experts at the show and be in with the chance to WIN a framed Mercedes Formula 1 shirt, signed by both Lewis Hamilton and George Russell.

**BOOK MY  
GARAGE –  
STAND S120**

Simply fill in a digital questionnaire and spin the wheel of fortune! Prizes include: free consultancy for two days in a year from the Chief Marketing Officer of **BookMyGarage** worth £2,000; three commission-free bookings every month for three months; and a free website for a year, worth £720.

**WALCOM UK –  
STAND BE01**

Independent repair technician and Instagram influencer **Specky Painter** will be on stand BE01 throughout the event!

**CASTROL AND THE RACE GROUP PART OF  
CERTAS LUBRICANT SOLUTIONS – STAND S130**

Come and see the full-size WRC rally car on the **Castrol** stand!

**FLEX TOOLS –  
STAND V90**

Meet **Wayne Beardmore** on the **Flex Tools** stand! Wayne is a SMART repair and plastic welding specialist with 81k followers on Instagram!

**T10 AUTOMOTIVE –  
STAND L134**

**Mechanic Mindset**, the YouTube online influence, will be on stand L134 for two of the days, doing demos, speaking to visitors, and running competitions.

**LASER TOOLS –  
STAND M120**

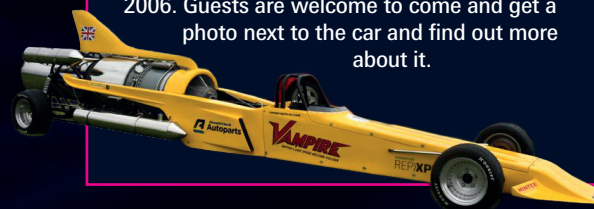

Attending on 6 June for one day only will be **Jake Hill**, driver of #24 BMW 330e M Sport for **Laser Tools Racing** with MB Motorsport.

**ALLIANCE AUTOMOTIVE  
UK – STAND R130**

Meet **Dan Rowbottom** and **Ash Sutton**! Dan and Ash will be attending on the **Alliance Automotive** stand on 7 and 8 June, providing the chance for people to have an exclusive chat with the BTCC drivers. Plus there will be photo opportunities for any racing fans to grab a quick photo with them.

**ARNOLD CLARK AUTOPARTS –  
STAND Q70**

**Arnold Clark** will have the famous **Vampire** jet car on their stand, which has twice set the land speed record in the UK, and infamously crashed by former Top Gear star **Richard Hammond** in 2006. Guests are welcome to come and get a photo next to the car and find out more about it.

### WALCOM UK – STAND BE01

Walcom UK are launching the 360 **TRUELIGHT**, a spray gun light that fits to any gun.

### MASTERFLO – STAND V130

Masterflo will be launching their latest IR Curing System **SMART-IR CURE** Automatic Mobile Catalytic IR Dryer. Drying clear coat in as little as 4-5 minutes, efficiency is five times quicker than traditional drying.

### FLEX TOOLS – STAND V90

FLEX are launching 3 new 18v brushless impact wrenches for the automotive sector.

### PROXL– STAND U135

In line with our show theme of promoting products that reduce bodyshop costs and increase throughput, we will be launching low-temperature rapid curing products and UV curing products.

### PARTSXCHANGE – STAND BE02

PartsXchange is a brand new mobile application for the bodyshop repair network, designed to help sell and buy used/new genuine parts. Users can have access to 1000s of parts on the fastest growing bodyshop marketplace!

### INDASA ABRASIVES – STAND W90

Indasa will be launching a new comprehensive range of powers tools, comprising an electric sander (3, 5 orbit), random orbital polisher and battery powered smart repair kit. Created by experts for professionals, this innovative range is designed to meet the highest of standards.

### 3D CAR CARE – STAND Y82

One of 3D Car Care's new products for 2023 is the 3D Glass Polish – a cerium-oxide based polish designed to remove swirls, scratches, wiper marks, and water spots from automobile glass surfaces. The unique formula requires minimal elbow grease, while providing superior 'like new' vision and clarity.

### SATA UK LTD – STAND W132

The SATAjet X 5500 is the latest SATA paint spray gun for highest demands. With the X nozzle system, painters are able to cope with all paint systems and application recommendations. In addition, the whispering nozzle noticeably reduces the noise level and gives bodyshops a softer, more pleasant painting feeling - all this with reduced material consumption.

### SAGOLA BY ELCOMETER STAND W130

Using the latest VR technology, test your spray skills with **SagolaSpray™** virtual spray booth. Measuring the distance, fan pattern and speed, the highest quality score each day will win a range of **Sagola** merchandise. The overall highest score will win one of the new Special Edition Guns worth over £600!

### 3D GROUP: AUTOMOTIVE LOCKSMITH SUPPLIES & OSCA DIAGNOSTICS – STAND Z72

Exclusive discounts off the OSCA 2.0 cable, as well as chances to win prizes and **OSCA** goody bags.

### LIQUI MOLY GMBH – STAND J40

Liqui Molly will have **Matty Evans** Racing Lamborghini Huracan on the stand. (GT Cup driver). They will also have a MotoGP bike on the stand (to be confirmed which model).

### HELLA LTD – STAND Q90

Hella Gutmann will be showcasing the mega macs X and the macsRemote, as well as the latest CSC Tool-Digital for ADAS calibration. Hella is also a forerunner when it comes to lighting, so this important product group will be represented by the Black Magic range of auxiliary lights and lightbars.

### FPS COMPRESSORS LTD – STAND G68

FPS Compressors are launching a new G-TEC full feature screw compressor.

### CZECH REPUBLIC PAVILION – STAND X70

Leave your business card at the **Czech Republic Pavilion** stand and you could win the following: two different commemorative coins with Czech industry motives; sets of piston rings; bottles of Czech beer.

### WALCOM UK – STAND BE01

Goody bag with every purchase!

### RIMBLADES LTD – STAND M69

Rimblades were the original self-adhesive rim protector bonded with 3M adhesives. Launching at Automechanika, Rimblades have an all-new version called Rimblades Original. Manufactured in the UK from Santoprene by Exxon Mobil with a micro fine wire core, Rimblades are the only truly universal bonded rim protector and original patented design.

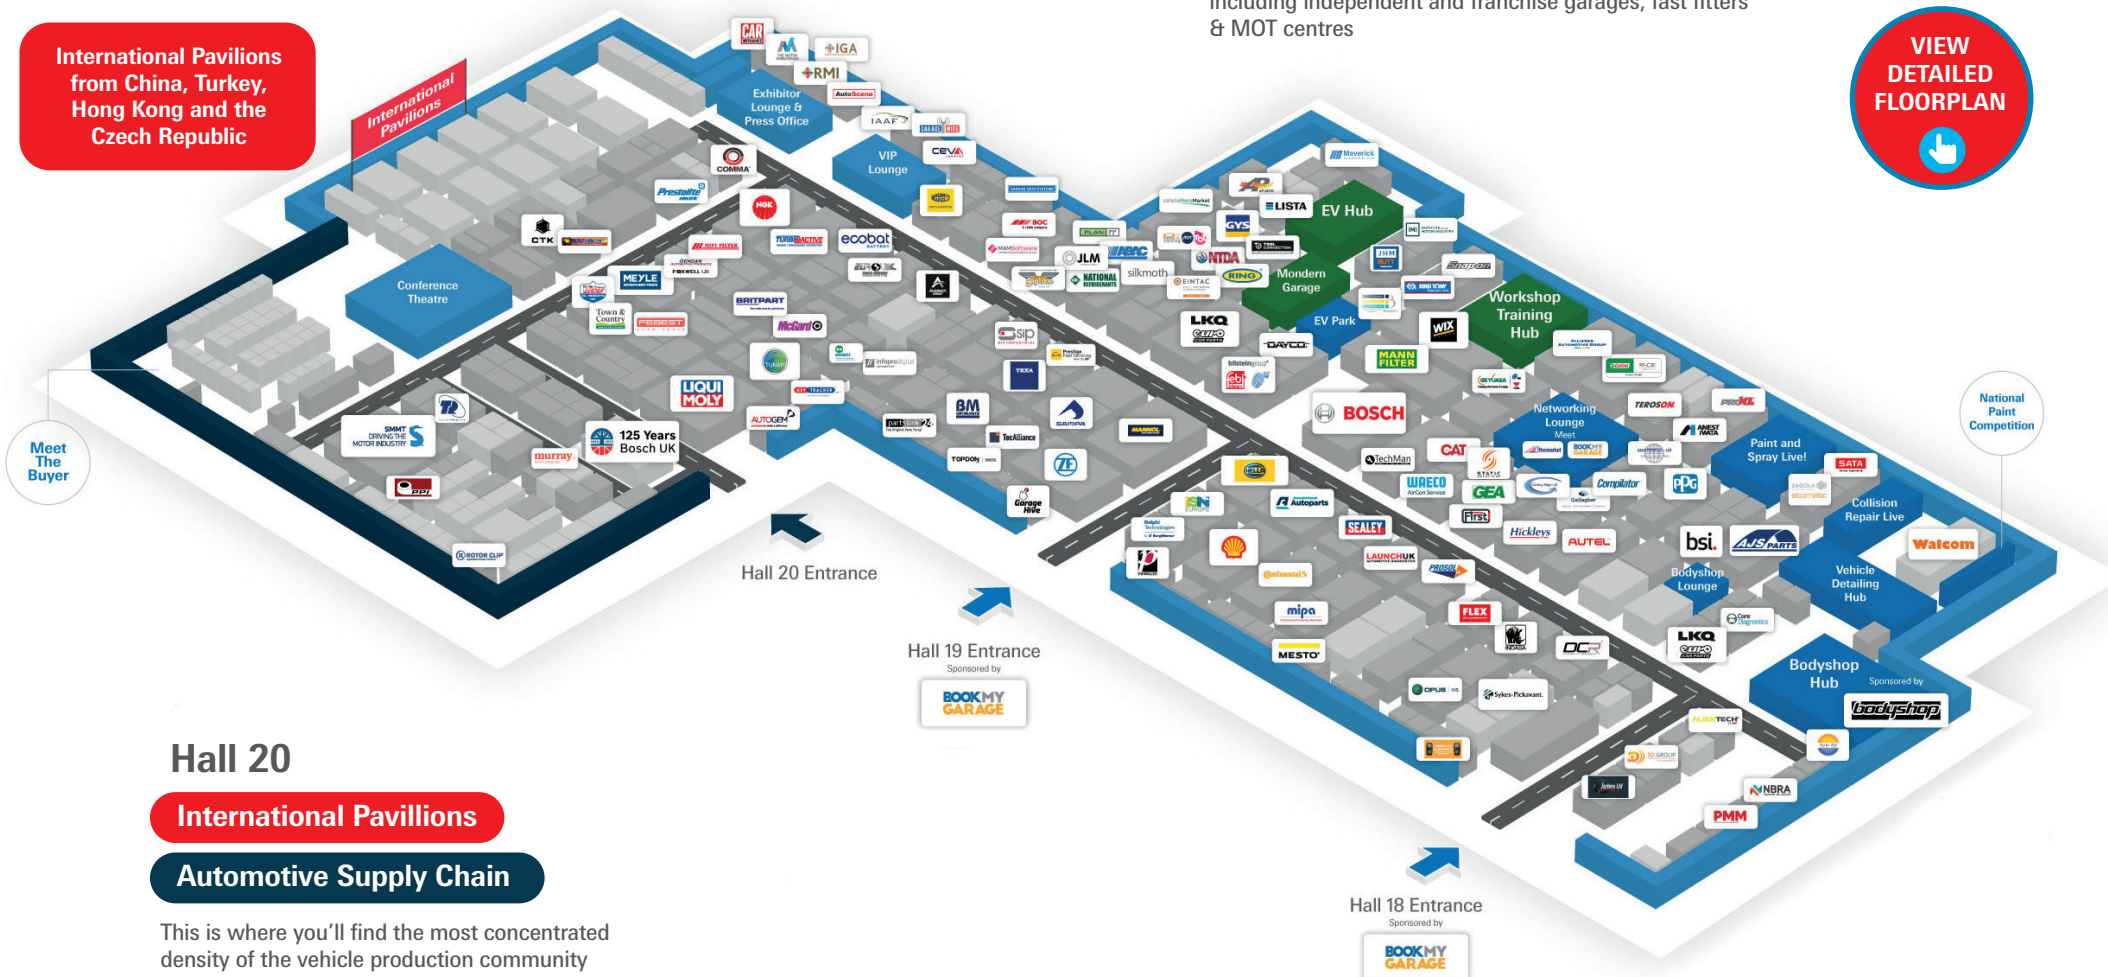

## Hall 20

### Distribution, Wholesale & Retail

First class conference programme and networking opportunities will host the UK's motor factor, distributor and automotive retail communities, as well as thought leaders from across the Aftermarket

# PatFluid®

## Additive for Diesel Particulate Filters

### NEW PatFluid® Bag Range

At Automechanika, we're excited to showcase our newly released PatFluid Bag product range.

- PatFluid Bag range designed specifically for vehicles with flexible pouch DPF additive dosing systems.
- The new Bag range is pre-filled with PatFluid additive ensuring easy and quick replacement.
- This complements our current offering of the PatFluid 1L, 5L and Transfer Kits for vehicles with tank reservoirs.

PatFluid is our aftermarket replacement for DPF additives which is used by various passenger car and van manufacturers.

For more info, please see our website, or visit us at Automechanika.
